

Don't get caught going over on your wireless minutes –

## Minute Tracker Alerts now available

If you've ever exceeded the number wireless minutes in your plan, you know how frustrating it can be when you receive your bill. With Minute Tracker Alerts, Cincinnati Bell has come up with a new tool to help you monitor minutes.

These alerts send a free text message to your wireless phone when you reach the total number of minutes that you have specified. For example, if you have 500 peak minutes in your plan and you want to know when you've hit 400 minutes so that you can slow down on your phone use until your next billing cycle, Minute Tracker can alert you via text message when you've reached those 400 peak minutes.

To set up your minute tracking alerts, visit [www.cincinnati-bell.com](http://www.cincinnati-bell.com) and login to **"My Account."** Once you've logged in successfully, select the **"My Services"** tab. Select the wireless phone number where you want the alerts to be sent. Then click on the **"Voice Usage Alerts"** link and set up your alerts. It's that easy.
